PerfectSense Gloss Lacquered Boards

Based on EGGER's proven MDF quality PerfectSense Gloss represents the premium category of high-gloss decorative lacquered boards.

With its exceptional level of reflection, exceptionally smooth finish and unique brilliance, PerfectSense Gloss represents pure luxury.

Benefits:

- High depth effect and mirror gloss finish
- Large board format of 2800 x 2070mm supports economic manufacturing
- Premium appearance through the glasslike finish
- High resistance to micro-scratches ensures long lasting brilliant surface
- Areas of application: Residential and commercial areas as well as retail

Brochure

Feelwood synchronized pore (EIR) on TFL

EGGER's Feelwood range of decors specially designed with multi-layers of papers to create a depth of texture often seen with solid wood. These decors represent the premium category among the 223 TFL decors within the EGGER decorative collection.

Benefits:

- CARB2/TSCA conformity and FSC® Mix Credit certified products are available on request
- No compromise in appearance and performance due to available décor matching laminate and edging materials
- Offer the best of two worlds: Wood reproductions designed by nature with a high-quality and light fast finish
- Benefit from short lead times through local stock

UltraMatte

Strategically Structured Layers of UltraMatte Sophistication

Premier uses Senoplast's proprietary multi-layered acrylic material to engineer our UltraMatte panels, doors and drawer fronts with the utmost perfection.

- **Incredibly Smooth Matte Finish** - designed to absorb the majority of light reflection creating a soft appearance and touch.
- **Scratch-Resistant** - top hardcoat layer developed to be the most scratch-resistant acrylic in the market.
- **Color Richness** - several layers are UV stabilized to ensure original color depth without fading.
- **Bonding Layer** - ABS natural developed for the best bond to the core material eliminating delamination.
- **PureCore** - made with the finest MDF core material specified for a low surface variance.
- **Cleanroom Production Facilities** - every UltraMatte panel is processed in our cleanroom environment to mitigate surface impurities.

Veneer Tech

Veneer Technologies Incorporated

Premium Hardwood Sheet Veneer & Edgebanding

Veneer Technologies, Inc. manufactures high end decorative hardwood veneer faces. They carry most domestic species and have access to many exotic species from around the world. They currently operate ten continuous cross feed splicers, producing approximately 6.5 million finished square feet of face veneer per month.

SHEET VENEER

Manufactured with a select grade face veneer crosslinked to a variety of backers. Backers include 10 mil, 20 mil, 2-ply with cross-grain back, 3M peel-n-stick, polyback, true phenolic. Sizes are 4' x 8', 4' x 10', 4' x 12'.

Custom sizes available.

WOOD EDGEBANDING

- Standard wood edgebanding
- 500' rolls, fleeced and sanded
- 250' rolls, preglued EVA hotmelt
- 3M peel-n-stick
- UV prefinished, preglued or fleece backed
- Widths 1/2" to 2"
- Custom widths and lengths available

THICK WOOD EDGE ROLLS

- 328' rolls. Thickness 1mm, 1.5mm, 2mm, and 3mm
- Please inquire about available widths and species

arauco

High-quality Trupan MDF is a CARB-certified, lighter-weight panel that offers the perfect blend of physical-mechanical characteristics. Ideal for furniture making and interior design applications.

Trupan panels combine outstanding appearance with exceptional technical properties, making them the ideal option for furniture, cabinetry, millwork, moulding, slatwall and flooring, among other interior applications.

arauco

Trupan Ultralight is manufactured using 100% fresh pine fiber, forming a lightweight, workable panel with a light, uniform color.

Trupan Ultralight MDF provides a smooth, flawless surface and a consistent density profile, and is an ideal choice for millwork and lamination applications where finished product weight is a concern.

Trupan Ultralight MDF panels have an average density of 32 lb/ft³

Brochure

West Fraser medium density fibreboard (MDF) panels are composed of 100% western white softwoods that have a consistent light sandy color. The purity and long fibres associated with this material allow for deep, detailed profiling and smooth machining for easier and better finishing.

An added benefit of our panels is the light color of our MDF reduces color show-through when painting. The result is significantly longer tool life.

Ranger Board is western softwood-based MDF that is well known for its machining and painting capabilities. Ranger has a multi-opening press of 6' x 24', which enables the production of a wide range of thicknesses and densities from 3/8" through to 1 1/2".

- Used for furniture, cabinetry, flooring, and millwork. MDF is manufactured from ligno-cellulosic fibres (wood and plant dry matter) bonded together with a formaldehyde containing binder
- Standard finish on all panels is 150 grit
- Eco® and FSC® certified
- Moisture content: Average moisture content of finished panels as shipped is 4 – 6%
- Finished sizes available:
Width 48" to 73", Length 48" to 205"

BALTIC BIRCH

BALTIC BIRCH

DRAWERSIDES

Excellent Raw Material Resource

Baltic Birch is offered from both non certified and FSC® certified forests. Russia contains more than a fifth of the world's forests, making for an abundant supply of raw material

100% Hardwood Fiber

Made from 100% Birch hardwood veneers and early void free components, this material offers exceptional hardness and specific gravity, making Baltic Birch plywood amongst the strongest and most dimensionally stable panels available.

Multi-ply Construction

The construction of BALTIC BIRCH plywood has 30% more plies than conventional domestic plywood. The combined results of the Birch hardwood fiber and the multi-ply construction make for a panel that is specially designed to endure heavy loads or high impact. Baltic Birch is also available in unidirectional construction from 9mm-30mm thick.

- Direct importer – more choices and better quality control
- Production quality supervised by Hardwoods employees in Russia
- 3.0mm through 25.0mm
- 5' x 5', 4' x 8'
- Grades: B/BB, BB/BB, BB/CP
- NAUF, FSC®, CARB 2, exterior and clear finished
- Custom sizes and grades available
- Laminating blanks

FAMOWOOD®

Wood Filler

FAMOWOOD Original Wood Filler has been the choice of professional woodworkers for over 70 years! It doesn't matter whether you are masking small or large defects, FAMOWOOD can handle the job. It spreads smoothly into cracks and holes, takes stains and paints evenly and resists cracking. Perfect for any type of custom wood project.

- Dries in 30 minutes
- Won't crack or shrink
- Can be sanded, drilled or planed
- Stainable and paintable

Wood Filler Thinner

Wood Filler Thinner is designed to keep FAMOWOOD Original wood filler in top working condition. It will restore wood filler to its original consistency and workability. It also eliminates virtually any waste and extends the life of the wood filler.

- Outstanding UV protection
- Tough – designed for use on hardwood floors, floor boards, boats and other high traffic surfaces
- Abrasion and scratch resistant
- Fast drying – dries in half the time
- Easy-to-use – no mixing required
